   Bhandara is on National Highway No.6 & Hawda-Mumbai Railway Route

About Conference

        We are living in the era full of challenges and opportunities and to prove ourselves we have information technology at   our service. Information technology has reformed each sector it has grasped and it is currently in the promising phase of altering academia. In the coming decade   if information technology has its approach, education will be changed more immersively and hopefully more constrictive to the people than it is today. Digitalization in education has totally changed the learning and teaching process to a great extent. The true revolution in education can only be achieved via digitalization of education.

        Blending traditional instruction process with digital learning is one of the ways we can make our future generation to become global contributors.

Conference Objectives

1) To enable teacher educators to understand digitalization of education.
2) To encourage contribution of scholars and teacher educators for designing digital education.
3) To provide platform to the teacher and teacher educators to voice their problems in digitalization of education.
4) To promate research scholars to bring about innovative ideas in digital learning and teaching
5) To encourage scholars and teachers to study pros and cons of digitalizing education at different levels.
6) To encourage teacher educators to undertake research work in digitalizing education.
